About me

I'm looking for job opportunities as I will graduate and get my bachelor's degree this June. I'm trying to find a team that would make me grow.

In the last year, I tried to become better at web development as I find this very interesting.

I consider myself a self-taught programmer, but I also have a formal education in informatics.

Soft skills

I am motivated and productive
I like problem solving and learning new things
Great aesthetic and artistic sense
I am responsible and I like challenges

Hard skills

Graphic Design (Illustrator, Photoshop, Figma)
Systems Design (UML and BPMN)
Great at HTML, CSS & JavaScript
Currently learning React, Redux, and MongoDB
SQL, PL/SQL and Database Design
OOP & Data Structures in C++ and Java
Statistics and Data Analysis with Python
Git Version Control

Achievements

Letter of Reference
2020 - Ubisoft

Responsive Web Design Certification
2021 - freeCodeCamp

Database Design and Programming with SQL
2020 - Oracle

Certificate of Professional Competences in
Informatics & English
2019 - Ministry of Education

Cambridge English C1 Advanced
2018 - Cambridge Assessment

My Projects

Pets and Owners Evidence (React, SQLite)

SVG Editor (HTML, CSS, JavaScript)

Duolingo Clone (HTML, CSS, JavaScript)

Bouncing Ball (HTML, CSS)

Education

"Grigore Moisil" National College (2015-2019)
Mathematics and Informatics
Intensive English class
Member of the high-school magazine's editorial team

ASE - Faculty of Cybernetics, Economic
Informatics and Statistics (2019-2022)
Ranked in the top 3% in 2019 and 2022
Besides the programming background I am familiar with subjects such as finance and management

Experience

Ubisoft Trainee (2020)
I participated in an internship at Ubisoft for my practice program where I first learned React and JavaScript fundamentals. At the end, we had to build a basic React application: a digital CV. This experience motivated me to get better at Web Development so I started taking tutorials and courses.

PR & Marketing Member at SiSC (2019-2022)
I joined the student's syndicate in the first year of university mainly to make new friends and find people with similar passions. I learned new skills like time-management, working with Illustrator and Photoshop and I had many opportunities make marketing materials.
