About me

Hello there! I'm looking for job opportunities as I will graduate and get my bachelor's degree this July.

I am familiar with several programming languages, especially the ones specific to Web Development

Alongside with my university education, I engaged in several projects that developed my skills.

Soft skills

I am motivated and productive
I love working in a motivated team
I like problem solving and learning
Great aesthetic and artistic sense
I like challenges

Hard skills

Graphic Design experience
Informatic Systems Design
Excellent HTML, CSS & JavaScript
Trying to master the MERN Stack
SQL and Databases
OOP & Data Structures in C++
Statistics and Data Analysis

Achievements

Letter of Reference
2020 - Ubisoft

Responsive Web Design Certification
2021 - freeCodeCamp

Database Design and Programming with SQL
2020 - Oracle

Certificate of Professional Competences in Informatics & English
2019 - Ministry of Education

Cambridge English C1 Advanced
2018 - Cambridge Assessment

My Projects

Pets and Owners Evidence (React, SQLite)
React App with a REST API and a SQLite database that keeps track of the pets and their owners.

SVG Editor (HTML, CSS, JavaScript)
A drawing app that uses SVG to represent the shapes drawn by the user

Duolingo Clone (HTML, CSS, JavaScript)
A Duolingo type English test about common idioms and phrases

Bouncing Ball (HTML, CSS)
A simple mini-game where you have to stop the ball from hitting a wall, using a paddle moved through the arrow-keys
